

As featured in the **August, 2015** edition of **Delicious** magazine (see page 56).

Born in 2003 in a small village our delicious Amari products are made entirely using "tradizionale" recipes. The range has been crafted by two sisters to provide the perfect fusion of raw materials to create a selection of products an authentic way.

Every cantucci has been made by hand, one by one following traditional methods and represents passion and uniqueness. The products have been developed using a careful selection of local produce such as, Tuscany's chestnut flour and pure butter from the first outcrop cream. This combined with traditional methods create Italian biscuits the authentic way.
